Good Afternoon Kathy and Ruth,

Please find attached for your review the modified ESA Option Papers and the ESA Table. Please note that the modified option papers incorporates the comments I got back after the workgroup meeting on ESA. Please note that I have included a marked up version as well as a clean version to allow to see all the changes. I have also take the opportunity to clean up the option paper to have it read in a more logical manner as well as incorporate some comments that were discussed in the workgroup discussions but not formally submitted to me via email. If requested I am happy to break down any part of the paper if you don't understand an edit that was made. **Also the workgroup didn't really provide me any true input in either category for their preferred course of action.** I talked a little bit to Ruth about it and it sounds like she had the same issue with the tribal paper.

I hope I was not off the mark for the deliverable and deadline.

Happy to help in any other way while we prep for Option Selection.

Sincerely,

Stephanie
